

Industry Contra Costa ART Project

100 - yr tide + 36" SLR 50 - yr tide + 48" SLR

FEMA 100 - yr Flood Zone

Disconnected Areas > 1 Acre

Major Wetlands and Water Bodies

Potentially Exposed to Flooding

Hazardous Material Sites

Brownfields (by DTSC Cleanup Status)

Certified / Operation & Maintenance

Certified O&M - Land Use

Inactive - Action Required

Heavy industrial

Industrial Park (with structures)

Research and Development, with or without structures

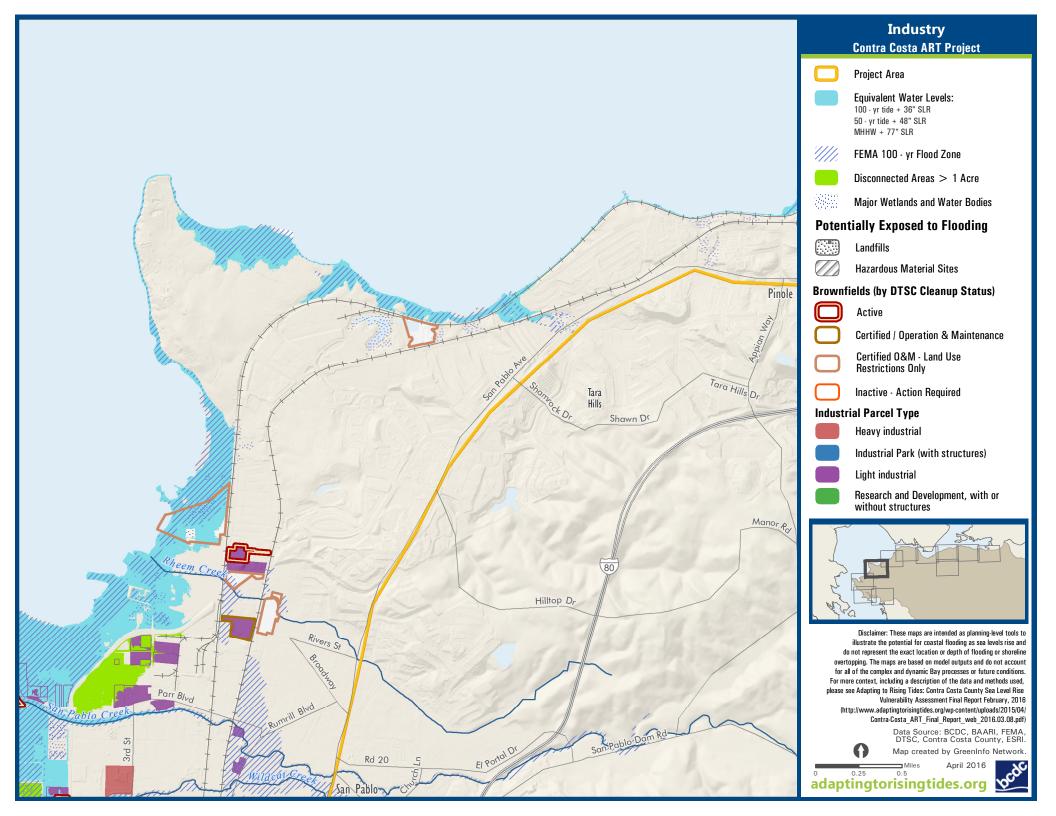

Disclaimer: These maps are intended as planning-level tools to illustrate the potential for coastal flooding as sea levels rise and do not represent the exact location or depth of flooding or shoreline overtopping. The maps are based on model outputs and do not account for all of the complex and dynamic Bay processes or future conditions. For more context, including a description of the data and methods used, please see Adapting to Rising Tides: Contra Costa County Sea Level Rise Vulnerability Assessment Final Report February, 2016 (http://www.adaptingtorisingtides.org/wp-content/uploads/2015/04/

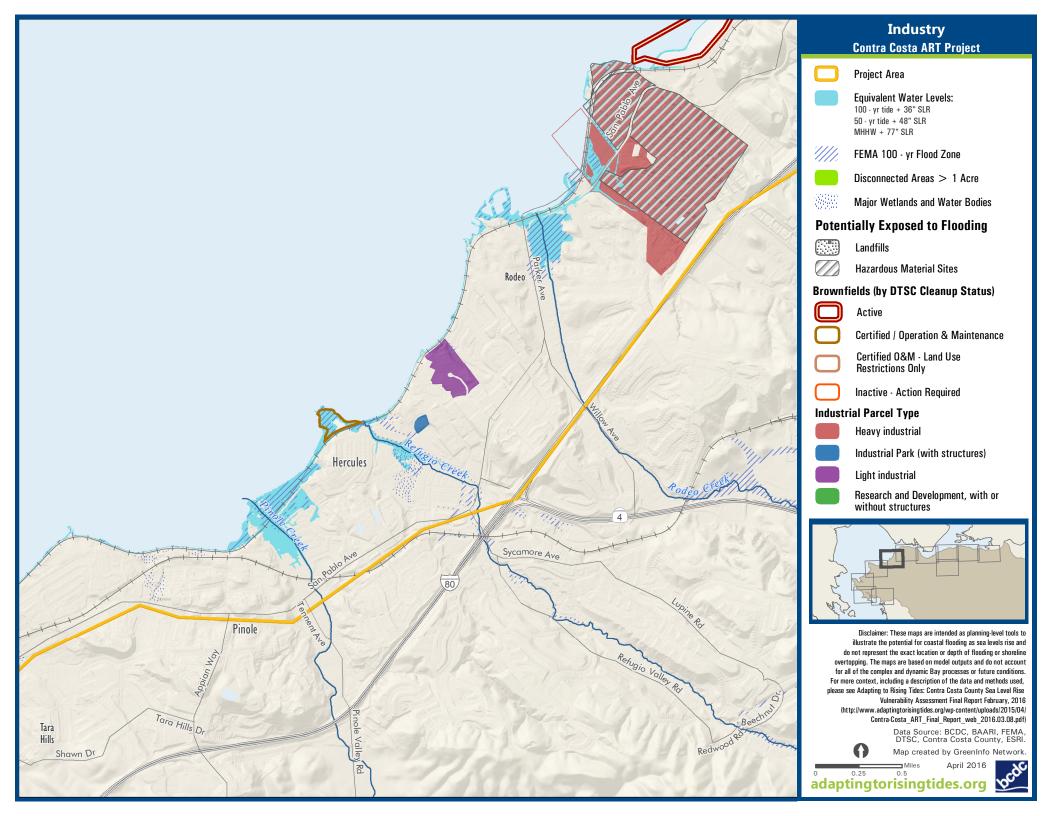

Contra-Costa_ART_Final_Report_web_2016.03.08.pdf)

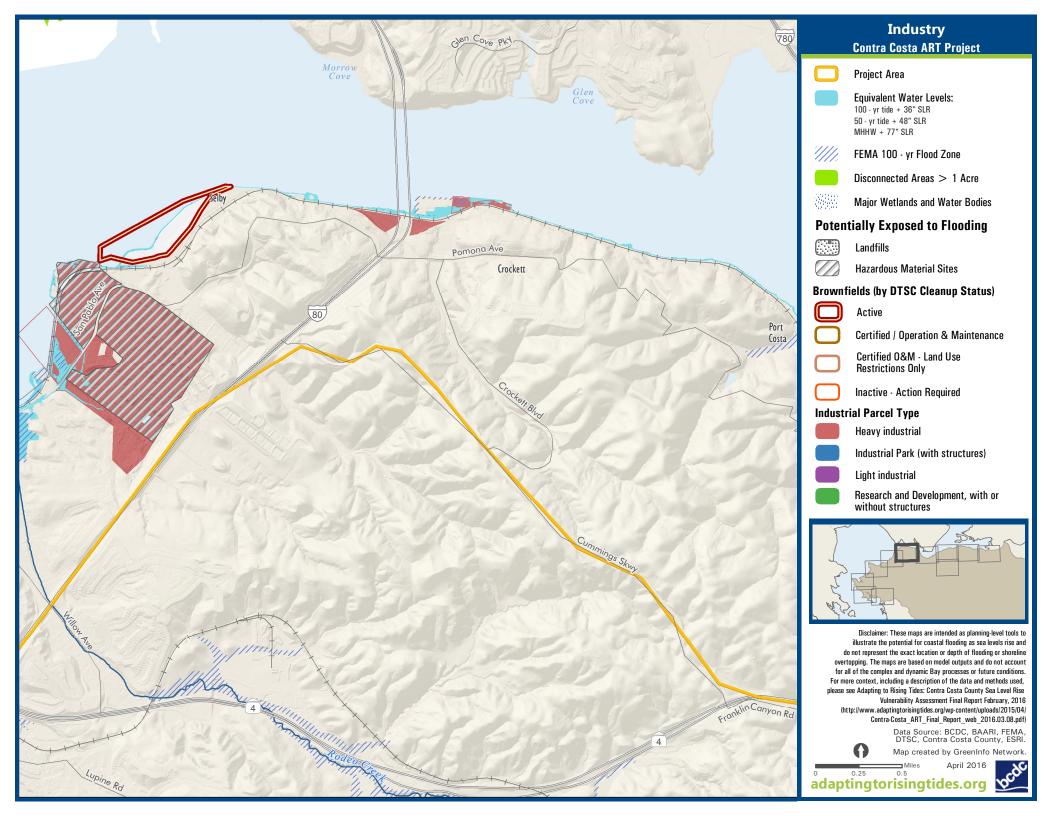

Data Source: BCDC, BAARI, FEMA, DTSC, Contra Costa County, ESRI.

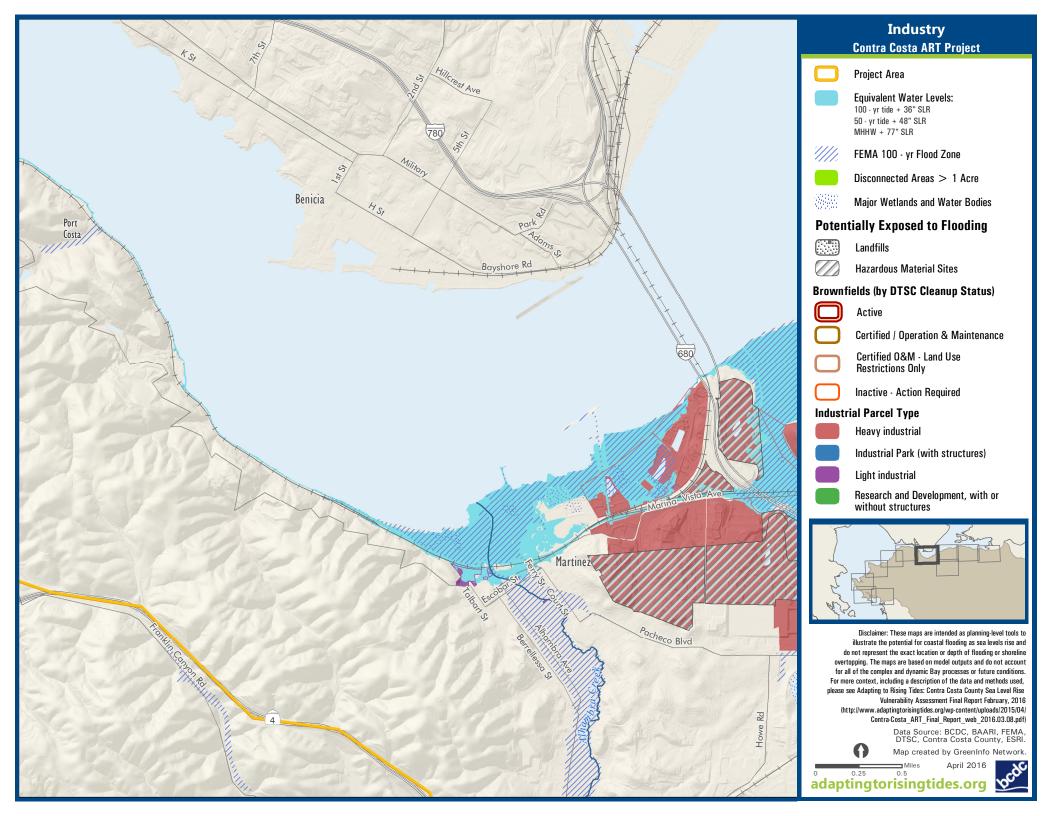

Map created by GreenInfo Network.
