Bay Area Metro Center
375 Beale Street, San Francisco
Thursday, December 1, 2016

WORKSHOP SERIES OBJECTIVES

A leader is best when people barely know he exists, when his work is done, his aim fulfilled, they will say: we did it ourselves.

1. Bring issues identified by the Rising Sea Level and Bay Fill Commissioner Working Groups, Policies for a Rising Bay project, and the Adapting to Rising Tides Program to the full Commission and a broader range of participants
2. Assist the Commission in determining the direction BCDC and the region should take to address rising sea levels
3. Begin new levels of coordination and collaboration

Workshop Objectives

The fifth workshop is focused on scoping the implementation of the regional actions approved by the Commission on October 6, 2016. Starting with the Regional Adaptation Plan and improving the resilience of regional assets (Actions 1 and 4), Commissioners and participants will engage in exercise to help scope the implementation of these two actions.
